"bloop," inflated with helium, the non-inflatement gas disqovered during the war flew to Washington from Hamp-ton Roack, Va., and back again Monday, making an actual demonstration of belium's lifting power. The first ship of the air to be inflated with helium, she met every test her officers reported. Not only was the ship bouyant and safe from fire or ex-plosion, but she carried back to Hampperfectly, ascending and descending without "valving." The official report shows the test wholly satisfactory. A lending was made at the Naval Air Station at Anacostia. Army and Navy ship, first in the world, it was said, to be lifted from earth by any other gas than hydrogen. The new gas was 98 per cent. of the lifting power of bydro gen, the experts say.

Continued improvement in business conditions in October, reflected notably in percased output of from and steel and textile products, and also a wide-spread stimulation in building and its spread stimulation in building and its related industries, was reported by the Départment of Commerce Wednesdhe' in its "survey of current business."
